Dealers will get an opportunity to gain in-depth information about ALTRUM Nutritional Supplements at AMSOIL University. This year’s event is May 20-24.

ALTRUM Manager Greg Sawyer will present Dealers the latest information on the benefits of food supplementation.

ALTRUM News sat down with Sawyer to discuss his background and give Dealers a hint at some of the information that will be covered at AU 2012.

**Q: ALTRUM**: How did you get involved with nutritional supplementation?

**A: Greg Sawyer**: It was a natural progression for me. Nutritional health was very much part of my course study during my time in chiropractic school, and became more important during my career working with severe burn patients. I also married a medical doctor who later became a natural medicine physician.

**Q: ALTRUM**: Why do you believe in nutrition?

**A: Sawyer**: Because it is paramount to your health and longevity. Taking care of yourself from an early stage can give you a step up in maintaining your health and energy over the long term.

**Q: ALTRUM**: Why is self care the best health care?

**A: Sawyer**: There really is nobody who knows how you feel and how you take care of yourself better than you. Eat right, live right and take your supplements. It is pretty easy when you follow these few simple rules.

**Q: ALTRUM**: What do you find ALTRUM Dealers are most concerned with regarding their health?

**A: Sawyer**: Dealers want to stay healthy. In these times when there are so many questions with food, air and water quality, Dealers know that maintaining a healthy lifestyle is challenging. They realize there are no magic bullets or quick fixes to health problems. For many, taking nutritional supplements has become a daily routine in maintaining their health, along with changing their diets and exercising more.

**Q: ALTRUM**: What are the top selling ALTRUM products and why?

**A: Sawyer**: Ultra Probiotics — Probiotics provide a daily supply of beneficial bacteria for the gut. Health begins in the gut. *

ALTRUM Supplements Supply Important Nutrients for Good Health

Continued from page 1

Ultra Multis — There is not a finer multi on the market, according to our research of comparable supplements. It provides all the daily requirements of vitamins, super foods, minerals and herbs to help maintain a healthy constitution.*

Ultra Daily Enzymes — As we age we have a diminishing capability to produce enough enzymes for all of our bodily functions. Ultra Daily Enzymes can help replenish vital digestive enzymes to help people get the most out of the foods they eat.*

Ultra Omega 3 — These are important because the body does not produce essential fatty acids. Omega-3s must come from foods such as fish, nuts and seeds. Ultra Omega-3 is a premium product to supply these vital fatty acids.*

Vision Power — A fabulous product that can help protect the eyes and support eyesight. Vision Power also may support sharp, clear eyesight, reduce eye strain, blurred and irritated eyes. Its powerful antioxidant ingredients also may benefit the entire body.*

Joint Formula — This is a natural formula that may help bring joint and muscle comfort to the entire body.*

Prostate Formula — A formula of known ingredients that may help men reduce the potential problems of benign prostrate hypertrophy and help preserve male function.*

Q: ALTRUM: If you were to recommend just three products to begin with what would they be?

A: Sawyer: A.J.’s Ultra Multi, Ultra Daily Enzymes and Ultra Omega 3. These supplements provide the nutrients and enzymes the body needs daily.

Q: ALTRUM: Why choose ALTRUM supplements over other brands in the marketplace?

A: Sawyer: Because they work. I’ve worked with other vitamins and supplement formulas throughout my career, as has my wife in her medical practice, and ALTRUM has proved simply to be the best. As a Dealer, it only makes sense to look at the ALTRUM supplements line before looking elsewhere.

Age is More Than a Number
Research has shown that how people feel inside, and their expectations of their capabilities, can have a greater impact on health, happiness and even longevity than the date on their birth certificates.

Men and women older than 50 with more positive self-perceptions of aging lived 7.6 years longer than those with negative perceptions, according to a 2002 study led by Yale University epidemiology and psychology professor Becca Levy.

Other studies reveal that feeling younger than you are is linked to better health, life satisfaction and cognitive abilities.

More important than reversing the clock is to be optimistic about it, according to Laura Carstensen, founding director of the Stanford Center on Longevity. When asked in studies how old they'd like to be, most people say they wish to be 10 years younger because they'd be healthier. No one wants to be 20 years old, according to Carstensen.

And aging does have its upsides.

Emotional satisfaction and stability tend to improve as people get older, despite sad events like losing friends or social status. Because time seems short, elderly people focus on what matters most to them, such as personal relationships, rather than flailing about in the uncertain what-ifs of youth, according to Carstensen. It’s not a happy-go-lucky happiness, but a deeper sense of gratitude.
